• Constructed of comfortable nylon fabric
• Features one of the most efficient permethrin fabric treatment processes available
• Sweating and washing won’t deteriorate effectiveness
• Hats maintain protection after 70 washings – extending the life of the hat while giving you maximum value and performance

WHY NO FLY ZONE™?
• Permethrin is recommended by the CDC and WHO as a defense against insects
• Featured on the WHO’s list of essential medicines
• Also used to treat US military uniforms and mosquito nets to improve their efficacy

NO FLY ZONE™ IS EFFECTIVE AGAINST
• Mosquitoes
• Ticks
• Ants

CONTACT REPELLENCY
Registered with the EPA, Burlington® Lab’s No Fly Zone™ insect repellent technology works as a contact repellent. As a contact repellent, NFZ affects the insect’s nervous system causing “hot foot” making the insect fly away before it may bite. This technology may help to prevent the spread of insect borne diseases by repelling insects away from the body through apparel or gear.
